DESCRIPTION:

This TSB provides information on both new and carryover 2006 model year exterior colors. It includes paint codes, vehicle applications and paint manufacturers' stock numbers.

The exterior color codes are read from the FMVSS VIN label at the base of the Driver's side 'B' pillar. The 4 digit color code has the exterior color followed by the interior color. "EBLK" indicates a black (EB) exterior with a gray (LK) interior.

NOTE: The Santa Fe paint codes are two tone colors. Refer to the two tone color table for the actual paint color codes. Tucson two tone vehicles use the paint color with ZW for the cladding color

Fifteen (15) new exterior colors have been added for 2006:
