DESCRIPTION:

2006 Sonata vehicles are equipped with two types of audio units. The AM/FM/single disk CD/MP3 player is standard in all vehicles. The AM/FM/6-CD Changer/MP3 audio system is optional in the LX trim level vehicles.

The appearance of the faceplate for the two audio units is very similar. When replacing an audio unit, be sure to install the correct replacement part. If an incorrect audio unit is installed in the vehicle, no sound will emerge from the speakers.
