DESCRIPTION:

This TSB provides information on both new and carryover 2007 model year exterior colors. It includes paint codes, vehicle applications and paint manufacturers' stock numbers.

The exterior color codes are read from the certification label on the driver's door or at the base of the Driver's side 'B' pillar. The 4 digit color code has the exterior color followed by the interior color. "EBLK" indicates a black (EB) exterior with a gray (LK) interior.

29 new exterior colors have been added for 2007:
